Happy New Year to you! And with it's approach may we all find a sense of renewed invigoration in planning for what we hope to be a successful year of club outings and activities. Our meetings are scheduled to resume at the Hangar this January with all members required to bring proof of vaccination and appropriate masking as required by Alberta Health. We appreciated all members' patience in abiding by the requirements at this time so let's be optimistic that the restrictions will be short lived!

Our big news is that APAC will be hosting the 60th International car meet in July. While a significant amount of planning has been put into the program there is still a lot of work ahead to do in order to make the event a successful one. We have a number of positions that will be coming available for volunteers to sign up and contribute their efforts in helping out. A formative meeting will be called later in January once a number of volunteers have signed on board and we can put the wheels in motion to get the International off to a grand start! There will be a sign up board at the January meeting ...give it some thought on which area you would like to work on or help out in...or if you would just like to sign up on the organizing committee to help out behind the scenes we would appreciate it...as we all know there is always *something to do* before, during and after an event!

As well, remember that the club is planning to publish a new roster in March so make sure you get any **change of information into Mark Tomlinson no later than February 28th** for inclusion into the new edition. If he doesn't hear from you then it will be assumed all current information will be carried forward.

Other events to look forward to in the short term are the Lethbridge Swap Meet, Calgary World of Wheels, CAVAC Red Deer Swap Meet among other things so let's all be optimistic about the return to doing what we do best-- promoting our car hobby and the friendship that comes with it!

Here's to a better road ahead for all!

Keith

NB – Keith spoke on the International Car Meet being put on by the club in 2022:
Details and more information will be forthcoming as the organizing committees take shape.
Please plan to volunteer to help out!

Meeting adjourned: 8:02 pm

Following the meeting President Keith stated that restrictions created by the pandemic has once again made for a difficult year in trying to have well attended meetings supported by the membership. Since the need for an AGM could not be met and a call for elections was required, he announced that if there was anyone who was seeking an APAC executive position to indicate as such by a show of hands on the meeting screen. Since there was no show of hands, President Keith had indicated he had spoken with each of the other executive members and they would all volunteer to stay on for the 2022 year, President Keith then asked for a show of hands by members on screen to accept the continuation of the executive members in their positions for the year 2022 – and was carried unanimously. He went on to thank everyone for their support over the last year and together we should all look forward to a better road ahead in 2022!

Merry Christmas to all and the very Best to the Membership in the New Year!

ANTIQUES AUTO MEET

60th Anniversary 1962 - 2022

January 03, 2022

To all member clubs and International participants,

As we all know, the global health situation over the last two years has created a very different and frustrating environment for us all to safely co-exist in. The many of us who share interests in the automotive hobby have been adversely affected by a multitude of ever changing restrictions, postponements, cancellations and personal tragedies that have had far reaching effects on our ability to fully enjoy our purpose as a social group.

Unfortunately, the pandemic situation has had a ripple effect that has prevented our International Car Meet from being held by the HASSIE club for a second year in a row. It was the Spokane groups turn to host the 59th International in 2020 and this was sidelined when the full scope of the pandemic was revealed and restrictions were quickly set in place, with the closing of the borders being the most serious of them all. Even in the midst of uncertainty, Chairman Gene McKay remained flush with optimism that their club would have their weekend in the sun for all to enjoy the following year. However, the border closures were still in place in 2021 with no clear date in sight for them to reopen - further hindering any Canadian attendance to support the event. Once again, the postponement of the meet was given over to it being held the following year, but tragically Gene McKay passed away in late September from a sudden non-virus related illness.

To that end and to avoid and to avoid any further difficulties in seeing our car event move forward, the **59th International Antique Car Meet is being retired and will be dedicated to the memory of Spokane Chairman Gene McKay**. Our acknowledgement of Gene's tireless commitment to his club, the car hobby itself, and the countless number of car enthusiasts he met and befriended over the years is the least we can do. We are all fortunate to have called him a friend.

The Calgary group will be stepping up to bring you the 60th International as plans have been put in place and are being developed by the organizing committee. We have tentatively booked the event dates from Thursday July 21st to Sunday July 24th, 2022. The release of the registration package and event details will follow by the end of January but mark your calendars as noted so you don't miss out on attending the car meet. We look forward to seeing everyone there!

May there be a better road ahead for all in 2022!

It's time to renew your membership!

2022 Club Dues are now being accepted. There are three ways to submit your dues for 2022:

1. In person at the club meetings (fingers crossed Omicron doesn't spoil the party)
2. On-line banking e-transfer to the club's email address at apac.calgary@gmail.com
or
3. Mail a cheque directly to membership director Mark Tomlinson at 7 Sienna Park Cres. SW, Calgary, AB T3H 5H4

And one more important thing...

An updated roster is planned for March 2022 release. Did you add a new car to the fleet? Change your address or phone number? Please let Mark know about any updates via telephone (403-246-4499) or email (markt734@outlook.com)

A VERY COVID CHRISTMAS

T'was the night before Christmas, but Covid was here,
 So we all had to stay extra cautious this year.
 Our masks were all hung by the chimney with care
 In case Santa forgot his and needed a spare.
 With Covid, we couldn't leave cookies or cake
 So we left Santa hand sanitizer to take.

The children were sleeping, the brave little tots
 The ones over 5 had just had their first shots,
 And mom in her kerchief and me in my cap
 Had just settled in for a long winter's nap.
 But we tossed and we turned all night in our beds
 As visions of variants danced in our heads.

Gamma and Delta and now Omicron
 These Covid mutations that go on and on
 I thought to myself, "If this doesn't get better,
 I'll soon be familiar with every Greek letter".

Then just as I started to drift off and doze
 A clatter of noise from the front lawn arose.
 I leapt from my bed and ran straight down the stair
 I opened the door, and an old gent stood there.

His N 95 made him look pretty weird
 But I knew who he was by his red suit and beard.
 I kept six feet away but blurted out quick
 " What are you doing here, jolly Saint Nick?"

Then I said, "Where's your presents, your reindeer
 and sleigh ?
 Don't you know that tomorrow will be Christmas
 Day? ".
 And Santa stood there looking sad in the snow
 As he started to tell me a long tale of woe.

He said he'd been stuck at the North Pole alone
 All his white collar elves had been working from
 home,
 And most of the others said "Santa, don't hire us!
 We can live off the CERB now, thanks to the
 virus".

Those left in the toyshop had little to do.
 With supply chain disruptions, they could make

nothing new.
 And as for the reindeer, they'd all gone away.
 None of them left to pull on his sleigh.

He said Dasher and Dancer were in quarantine,
 Prancer and Vixen refused the vaccine,
 Comet and Cupid were in ICU,
 So were Donner and Blitzen, they may not pull
 through.

And Rudolph's career can't be resurrected.
 With his shiny red nose, they all think he's infected.
 Even with his old sleigh, Santa couldn't go far.
 Every border to cross needs a new PCR.

Santa sighed as he told me how nice it would be
 If children could once again sit on his knee.
 He couldn't care less if they're naughty or nice
 But they'd have to show proof that they'd had their
 shot twice.

But then the old twinkle returned to his eyes.
 And he said that he'd brought me a Christmas surprise.
 When I unwrapped the box and opened it wide,
 Starlight and rainbows streamed out from inside.

Some letters whirled round and flew up to the sky
 And they spelled out a word that was 40 feet high.
 There first was an H, then an O, then a P,
 Then I saw it spelled HOPE when it added the E.

"Christmas magic" said Santa as he smiled
 through his beard.
 Then suddenly all of the reindeer appeared.
 He jumped into his sleigh and he waved me good-bye,
 Then he soared o'er the rooftops and into the sky.

I heard him exclaim as he drove out of sight
 "Get your vaccines my friends, Merry Christmas,
 good-night".
 Then I went back to bed and a sweet Christmas
 dream
 Of a world when we'd finished with Covid 19.

While we're on the snowblower subject, did you know?

Arthur Sicard Invents Snow Blower in 1894, Arthur Sicard (born 17 December 1876 in Saint-Léonard-de-Port-Maurice, Quebec) witnessed a grain thresher at work in a wheat field and began to wonder if a similar device could be used to clear snow.

Sicard worked for his father, a dairy farmer, and was initially interested in making milk deliveries easier during the winter. Sicard worked on his device for over 30 years. In 1925, he completed his first machine and called it "la déneigeuse et souffleuse à neige Sicard," or the "Sicard Snow Remover Snow Blower." Attached to the front of a truck, the Sicard snow blower featured a scooper with an auger-like device and a fan capable of blowing snow about 27 m away.

Sicard Snow Blower

Arthur Sicard, of Saint-Léonard-de-Port-Maurice, Quebec, invented the first snow blower in 1925.
(courtesy Archives de la Ville de Montréal/Wikimedia CC)

Sicard's sold his first snow blowers to the cities of Outrement and Montreal in 1927. His design proved effective, and became popular particularly as the rise of the automobile demanded more effective methods of snow clearing.

When Sicard died on 13 September 1946, he was hailed as a genius who changed the city's relationship with winter.

Montreal's Rue Sicard, two streets over from the factory where he built his snow blower, was named in his honour.

SNOW BLOWERS

Talking of snow blowers, the town sent theirs this morning to widen the street as the snowplow can only push it off the side so much.

I don't know if it is a "Sicard" but it is an odd-looking bird!

This year, taxpayers will receive an Economic Stimulus Payment. This is a very exciting new program that I will explain using the Q and A Format

Q. What is an Economic Stimulus Payment?

A. It is money that the federal government will send to taxpayers.

Q. Where will the government get this money?

A. From taxpayers.

Q. So the government is giving me back my own money?

A. Only a smidgen.

Q. What is the purpose of this payment?

A. The plan is that you will use the money to purchase a High definition TV set or a new computer, thus stimulating the economy.

Q. But isn't that stimulating the Chinese economy?

A. Shut up!

CAPE BRETON LOGIC

Two Capers were sitting around talking one afternoon over a cold beer.

After a while the first Caper says to the second, 'If I was to sneak over to your house and make love to your wife while you was off huntin', and she got pregnant and had a baby, would that make us related?'

The second Caper crooked his head sideways for a minute, scratched his head, and squinted his eyes thinking real hard about the question.

Finally, he says, 'Well, I don't know about related, but it sure would make us even!'
